

## Road Construction Analysis

If anyone CAN - we CAN!

# Metal packaging for road construction analysis

The product features of plug-lid cans, drill core pails and pails „made by Pirlo“ at a glance:

- Easy and residual emptying of liquid and solid samples
- High stability
- Available from stock at short notice
- 100% recyclable
- Customised printing and embossing (lid) possible

## Plug-lid cans for bitumen sampling

- Excellent residual emptying
- Perfectly suitable for bitumen sampling

## Pails with plug-lid for asphalt sampling

- Easy plug-lid with snap-in function
- Easy reclosable
- Can be labelled and inscribed for safe allocation during storage

## Drill core pails

- Adapted to the drill core diameter 150 mm
- Nestable and stackable due to the conical shape and therefore perfect for space-saving storage/archiving

If you have any questions about plug-lid cans, drill core pails and pails our experts will be happy to help. Special can sizes are possible on request.

Unrestricted suitability for all filling goods cannot be guaranteed; this must be verified by the user through their own preliminary tests. The stated application groups serve solely as a legally based guideline.
